

Cooperative Mail Services

Postal Optimization and Distribution

Enru has mastered the science of postal optimization by designing cost-effective logistics strategies to deliver your printed content as efficiently as possible. By continuously investing in our highly strategic and proprietary cooperative service offerings, we deliver the lowest possible postage costs to our clients to increase the value of print in our clients' multichannel strategies.

We offer an array of co-service solutions to help our clients maximize discounts and improve delivery by reducing the number of touchpoints.

As the largest distributor of mail the U.S., we keep you moving in ways never before possible.

Co-Mail Service Offerings

Co-Mail for Flats

Consolidation into a common mail event during manufacturing significantly reduces postage costs.

Mail Tracking

Our web-based tracking application provides comprehensive, data-driven real-time visibility of your mailings.

Commingling for Letters

Combining multiple clients titles into a common mail event leverages volume to reduce costs and improve on-time delivery.

We solve for this load,
and the next. —————>
