

Solvent Ink Jet

Elevate Your Printing

Unlock a new realm of possibilities with our cutting-edge Solvent Ink Jet service, exclusively available on two of our Thursday Flex production lines! Perfect for those looking to create striking printed materials without compromising on quality, this service is tailor-made for customers and printers who want to avoid knockout windows on high-gloss coated books—think UV, Aqueous, and Varnish finishes that truly shine!

Key Features:

- **Perfectly Crafted for Glossy Finishes:** Our Solvent Ink Jet is designed specifically for books up to 5/8" thick, ensuring that your stunning, glossy covers remain seamless and eye-catching.
- **Customizable Ink Jet Area:** We provide a single, prominent 2" tall ink jet area, expertly positioned 0.5" from the head of cover 1 or the foot of cover 4, aligning perfectly with the CoMail user guide for optimal results.
- **Versatile Promotional Fields:** Want to include promotional content? We can seamlessly accommodate fields that run the entire width of the book in line with the address window, enhancing visibility without exceeding the address area.
- **Exceptional Quality:** Although our consumable materials, including premium ink and makeup, come at a higher cost, the investment guarantees superior quality that sets your product apart from the competition. Experience the difference with our advanced ink technology at a competitive price of \$2.00/k compared to traditional options at \$0.05/k.

Versatility for Various Applications:

Perfect for high-end catalogs, promotional materials, and special edition books.

Enhanced Customization:

Incorporate promotional fields that align with your address window for effective branding.

Reliable Performance:

Count on timely delivery and consistent quality with our dedicated production lines.

Superior Quality You Can Trust:

Invest in premium technology for exceptional results that set you apart.
